Cleanup Construction Activities

We are preparing to begin the third season of cleanup construction in the upper reach. The upper reach is the two most upstream miles of the Lower Duwamish Waterway Superfund site. In-water construction will occur October 2026 through February 2027 to protect certain fish species.

Construction will occur on weekdays and Saturdays. It will occur during both the daytime and nighttime. Work hours will vary depending on tides and the type of work being done. Please note that in-water construction activities are dynamic and weather-dependent. All schedules are subject to change. Visit ldwg.org for the most up-to-date information.

If you have questions, or concerns, you can reach our team at info@ldwg.org or 1-888-561-LDWG (1-888-561-5394).

What to Expect During the Week of September 28

The cleanup contractor, Pacific Pile and Marine, will begin moving equipment and barges on the waterway as soon as Wednesday, September 30. Beginning on Thursday, October 1, cleanup dredging will take place in sediment management area **(SMA) 12A**, followed by moving equipment to **SMA 16 (see map linked above)**. Crews will also be moving equipment to begin work at **SMAs 1A** and **1B** as early as Friday, October 2. Work will occur during the daytime, starting as early as **6 a.m.**

What to Expect During the Week of October 5

During the week of October 5, crews will begin dredging at **SMA 16** and continue dredging at **SMAs 1A** and **1B**.

An excavator, mounted on a barge, removes sediment from the Lower Duwamish Waterway during the second season of construction (Geosyntec, 2025).
