Cleanup Construction Activities

Season 3 construction of the upper reach, the two most upstream miles of the Lower Duwamish Waterway Superfund site, will continue through February 2027. In-water construction is limited to October 2026 through February 2027 to protect certain fish species.

Construction will occur on weekdays and Saturdays. It will occur during both the daytime and nighttime. Work hours will vary depending on tides and the type of work being done. Please note that in-water construction activities are dynamic and weather-dependent. All schedules are subject to change. Visit LDWG.org for the most up-to-date information.

If you have questions, or concerns, you can reach our team at info@ldwg.org or 1-888-561-LDWG (1-888-561-5394).
